Subject: RE: Wilcox Oil Company March 2015 EPA fact sheet

Good Day all, just a clarification on the fact sheet referenced. This is a Site Status Summary that the region keeps updated. The schedule for these updates is monthly. At the least, they are reviewed, the dates updated, and the reviewed/updated version is posted to the web. If there are site-specific details and updates that need to be made, these are updated on the summary and then uploaded to the web. There may be times that the summary is reviewed and the date updated; however, no new site data is added because activities are ongoing. These updates are posted by the 10th of each month.

FYI - EPA has a new Wilcox Oil Company EPA fact sheet updated March 2015:

<http://www.epa.gov/earth1r6/6sf/pdf/files/wilcox-ok.pdf>

I couldn't find this fact sheet with a search engine. It is listed on EPA's Oklahoma Superfund Site Status Summaries page:
